- Empathetic Care

Our Technology

Innovative, Cutting-Edge Technology For Better Care

Community Based Residential Facilities (CBRF)

Community Based Residential Facilities (CBRFs) in Wisconsin offer a unique residential setting for individuals requiring care and support with daily living activities.

These facilities cater to a diverse group of residents, including the elderly, those with disabilities, and individuals recovering from mental health issues.

CBRFs provide a homelike environment where residents can receive personalized care tailored to their specific needs, ranging from medication management to assistance with personal care and social activities.

Wisconsin's regulatory framework ensures that CBRFs maintain high standards of care, safety, and resident rights.

This approach promotes a quality of life that respects the dignity and independence of each resident, fostering a sense of community and belonging.

At Kindred Living of Kenosha by Majestic Residences, possibilities aren't just endless, they're also ageless.

Kindred Living of Kenosha by Majestic Residences

At Kindred Living of Kenosha, nestled in the heart of Kenosha, Wisconsin, we believe in providing a home, not just a place to live. Our residential assisted living facility is designed with the comfort and well-being of our 16 residents in mind, offering a cozy, family-like atmosphere where every individual is treated with the utmost respect and care.

Our Philosophy

We understand that choosing an assisted living facility is a significant decision for you and your loved ones. That's why our philosophy centers on offering personalized care that respects the independence and individuality of each resident. Our dedicated staff ensures that every resident receives the support they need in a dignified manner, promoting a healthy balance between assistance and independence.

Our Services

Kindred Living of Kenosha offers a comprehensive range of services tailored to meet the varying needs of our residents, including:

- 24/7 care and support from our compassionate staff
- Medication management and assistance
- Personal care services tailored to individual needs
- Nutritious, chef-prepared meals catered to dietary requirements and preferences
- A vibrant calendar of activities and social events to keep residents engaged and connected
- Housekeeping and laundry services

MAJESTIC MOMENTS

At Majestic Residences, we believe every minute on earth should be memorable. That includes every moment within our homes.

That's why we showcase professional musicians, artists, and other instructors to provide life-enriching moments to fulfill our residents' physical, emotional, and spiritual needs.

Our Majestic Activity programs are designed to encourage connections from the past and explore new experiences.

Memories are ignited from the 1930s to the 1950s with our old-fashioned sing-a-longs, performed by our professional four-piece vocal group, "The Majestic Melodies".

We strive to create environments where new passions can grow, like senior chair yoga or guided imagery with one of our virtual reality programs.

Memories are made and life is filled with Ageless Possibilities.

VALUES

WELCOME

H.O.M.E. VALUES

Most people talk about “personal values” but don’t often stop to think what they mean and why they matter. Values are the things, concepts and ideas which we consider good, important, and valuable in making our lives more meaningful.

One's values are influenced by the people and communities they're connected to.

At Majestic Residences, we believe values determine how you care for others. That's why everyone at Majestic Residences commits to our Welcome H.O.M.E. Values system.

We believe everyone, from our residents to their family members, deserve value-driven care.

TECHNOLOGY FOR CARE

ELECTRONIC HEALTH RECORDS

Majestic Residences is once again leading the way in the residential assisted living home industry with the implementation of Electronic Health Records (EHR) in all of their homes.

It's estimated that only 4% of all residential assisted living homes have a full Electronic Medical Record system.

Every Majestic Residence home has a full suite of Electronic Medical Records for our residents.

Electronic Health Records are the first step to transforming coordinated health care. The benefits of electronic health records include:

- Better health care by consistently monitoring all aspects of patient care, including safety, effectiveness, patient-centeredness, communication, education, timeliness, efficiency, and equity.
- Overall improved efficiencies
- Enhanced communication with the resident's various outside medical professionals.

THE SEAL OF THE JOINT COMMISSION OF ACCREDITED HEALTHCARE ORGANIZATIONS

Community Based Residential Facilities (CBRF) and larger Assisted Living and Memory Care Communities across the nation have not set standardization of care from state to state. Over time this has created a fragmented industry with inconsistent care across homes and communities.

Majestic Residences recognized this as a real problem in the industry and could lead to substandard and inconsistent care for seniors.

To combat this issue, Majestic Residences has partnered with The Joint Commission of Accredited Healthcare Organizations (JACHO).

Today, there are more than 50,000 combined Residential Assisted Living Homes and Assisted Living Communities in the United States serving more than 1,000,000 residents. With the growth in recent years, The industry has been increasingly shifting into a more healthcare-focused setting by offering services for medication management, memory care, ambulation and post-hospital, and rehab recovery support services.

This shift has highlighted the need for national, consensus-based standards and accreditation.

The Joint Commission's Assisted Living accreditation standards were developed with consideration of scientific evidence and best practices, as well as state regulations and Life Safety Codes. Experts in the field of geriatrics, dementia care, rehabilitation, infection control, and senior housing were actively engaged in a collaborative effort to design standards that align with quality care delivery and safe practices.

The standards address the environment, staffing, emergency management, dementia care, medication management, provision of care and services, process improvement, and more. In addition to an extensive internal review of the standards by subject matter experts, feedback and expert guidance were received from learning visits, a Technical Advisory Panel (TAP), Standards Review Panel/TAP field review, public field review, and pilot testing.

Majestic Residences are one of only a small handful in the industry committed to be part of JACHO's accreditation process. Less than half of 1% of all homes have made this commitment to increased level of higher care.

REVOLUTIONARY TECHNOLOGY TO
DETECT INCONTINENCE

MAJESTIC INCONTINENCE PROGRAM

A major concern in the long term care industry is how incontinence is managed. If not properly monitored and addressed, incontinence can lead to other serious issues.

Symptoms such as skin breakdown can lead to further infections which can lead to not just severe discomfort, but potentially dangerous situations particularly for diabetic seniors.

Majestic Residences cares for our residents better with one-of-a kind incontinence detection technology.

We partnered with DriQ healthcare to offer our residents an innovation in incontinent care. Our system uses RFID radio wave technology to detect and alert our Resident Ambassadors the moment your loved one's brief is wet or soiled.

The RFID chip never touches your loved one's skin and is working 24/7 to maintain your loved one's dignity and health.

AROMATHERAPY

IT ALL MAKES "SCENTS"

Used exclusively by Majestic Residences' assisted living homes.

Aromatherapy can be defined as the art and science of utilizing naturally extracted aromatic essences from plant oil to balance, harmonize and promote the health of body, mind and spirit.

The use of plant oils can be traced back over 6000 years. The Chinese, Egyptians, Greeks and Romans all recognized the therapeutic properties of essential oils and plant extracts.

Aromatherapy seeks to explore the physiological, psychological and spiritual realm of the individual's response to aromatic extracts as well as to observe and enhance the individual's innate healing process.

Majestic Residences' goal is to create a positive and relaxing environment for every resident and their families, which is why we invested heavily into the art of aromatherapy.

We hired professional chemists to help us meet that goal by creating a one-of-a-kind scent which we proudly call "**Welcome H.O.M.E.**"

The Welcome H.O.M.E. scent consists of a;

- top layer of **citrus** which **enhances the feelings of relation.**
- a middle layer of **floral** which **increases feelings of comfort,** and;
- subtle layer of scents of **musk, woody, and amber** to **enhance feelings of security.**

MEDICAL SERVICES IN RESIDENTIAL CARE

What happens when a resident in a Majestic Residences home needs medical care after a hospital or skilled nursing home stay?

Our residents receive medical care by Medicare Certified Home Health Agencies. Home Health Agencies covers a wide range of health care services both acute and chronic conditions, including but not limited to the following:

- Alzheimer's Disease
- Chronic kidney disease
- Chronic obstructive pulmonary disease (COPD)
- Diabetes
- Heart disease
- Recovery from illness or surgery
- Chronic conditions or injuries
- Pain management

Other professional services are offered from Registered Nurses, Social Workers, Physical Therapists, Occupational Therapists & Speech Therapists.

MAJESTIC GARDENS

Nutritious food is very important for older adults and Majestic Residences found a way to combine it in a fun and interactive way.

Meet the Majestic Garden. These indoor chemical-free gardens grow year-round in our homes supplying fresh "kitchen-farm" to table produce for our residents.

It all starts when our residents choose what type of fresh produce they want to grow.

They can choose from Muir Summer Lettuce, Garlic Chives, Astro Arugula, Classic Butter Lettuce, and more.

The day our seedlings arrive is always a fun day for our residents as they help us plant them in our indoor garden.

Once the seeds are planted, residents watch their garden grow to produce a delicious, healthy treat to share with others.

VIRTUAL REALITY FOR SENIORS

BECAUSE WHY SHOULD ALL THE YOUNG WHIPPER SNAPPERS HAVE ALL THE FUN?

When we're younger, we set lofty goals. Maybe one of them was traveling to Europe or going on a lion safari in Africa. Then life happens, and those dreams are often set aside to build a career and raise a family. Living with **Ageless Possibilities** means getting a chance to finally check off some of that bucket list.

With Majestic Residences' Virtual Reality technology, a trip to Europe is possible again. Walking with lions is no longer a long-lost dream and becomes a reality for our residents. These experiences are available to our residents on a daily basis. Imagine the feeling of strolling through a forest for the first time many years after your body made it impossible.

Our Virtual Reality technology is performed in a safe and tranquil environment free from obstacles and suited to brighten your loved one's day.

KEEPING THE LOVE OF PETS ALIVE

ROBOTIC PETS

Tails wag with every interaction our residents have with them. **They're so realistic, at first glance, you'll probably almost believe they're real.**

Many of our residents enjoyed the love, affection and companionship a dog or cat offers. We believe that shouldn't change just because they can't physically care for them any longer.

Residents with Dementia or Alzheimer's should be able to create memorable moments without the fear of a pet harming them or them harming a pet.

To create those loving memories again, we use the latest technology in robotic pets to create a safe environment for our resident's enjoyment.

Our robotic cats and dogs are extremely realistic both in feel, sound and behavior. Our cats purr when pet and our dogs beg for attention with encouraging little barks.

Kindred Living of Kenosha by Majestic Residences

Kindred Living of Kenosha, a number of Community Based Residential Facilities (CBRF) is an exemplary choice for families looking for a reliable, compassionate, and professional environment.

With its strong emphasis on personalized care, the facility tailors its services to meet the individual needs and preferences of each resident, ensuring a comfortable and dignified living experience. The staff at Kindred Living are highly trained and dedicated to upholding the highest standards of elderly care, focusing on holistic wellness that caters to both physical health and emotional well-being.

The facilities itself is designed to foster a sense of community and security. It features well-maintained and accessible living spaces, serene outdoor areas for relaxation, and a variety of engaging activities that encourage social interaction and mental stimulation.

"Welcome H.O.M.E. to
Ageless Possibilities."
